Email: hageprajwal3@gmail.com | GitHub: github.com/Prjhage

Address: Pune, Maharashtra 411011, India

EDUCATION

Pimpri Chinchwad College of Engineering (PCCOE), Pune - 411044 - Affiliated to Savitribai Phule Pune University
B.Tech - Computer Engineering | 2023-2027

TECHNICAL SKILLS

- Languages: C++, C, JavaScript, SQL, Python
- Frameworks: HTML5, CSS3, React.js, Node.js, Express, Next.js, Bootstrap, Tailwind CSS
- Databases: MongoDB, SQL
- Developer Tools: VS Code, Git, GitHub

PROJECTS

Travlio | JavaScript (Link)
- Developed a modern travel planning web app enabling users to explore cities, check real-time weather, and organize itineraries.
- Integrated live weather APIs and geolocation features to deliver personalized trip recommendations.
- Designed an interactive UI with dynamic content updates and optimized performance for smooth navigation.
- Focused on enhancing user experience through clean design, API integration, and intuitive travel planning flow.

QuizCraft | React, Node.js (Express), JavaScript (Link)
- Developed a responsive multi-language quiz app with real-time feedback, scoring system, and confetti animations.
- Implemented topic-based question selection and dark/light mode toggle for enhanced usability.
- Integrated backend APIs using Node.js and Express for dynamic quiz content and score tracking.
- Designed an intuitive UI with visual statistics and progress visualization to improve user learning experience.

LockQuest | React, CSS (Link)
- Built an interactive password challenge game enforcing 15 progressively complex validation rules using React state logic.
- Implemented real-time input validation and rule unlocking system to enhance engagement and cognitive challenge.
- Designed a dynamic live progress bar providing visual feedback as players complete password rules.
- Focused on user experience and gamification by integrating logic-based puzzles that encourage creativity and memory.

Coding Platforms

- LeetCode : 1530 rating
- CodeChef: 3 Stars
