SUMMARY:

I am a passionate MERN Stack Developer with a strong interest in data structures and algorithms. With hands-on experience in building interactive applications using modern technologies such as React.js and Node.js, I have created diverse projects that enhance user experiences.

TECHNICAL SKILLS

- **Languages:** C++, JavaScript, python
- **Frontend:** HTML5, CSS3, React.js, Next.js, Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, SQL
- **Tools:** VS Code, Git, GitHub

PROJECTS

[Grandel](#) | React.js, Node.js, Express.js ([Github](#))

Feb 2026

- Developed **Grandel**, a full-stack platform with secure guest and host authentication.
- Built dynamic listing management with real-time pricing and interactive map integrations.
- Integrated a custom AI travel assistant for personalized property searches and recommendations.
- Implemented secure payment processing for automated booking confirmations and financial transactions.
- Engineered a centralized host dashboard for efficient property management and booking tracking.

Salary-Ai | React.js, FastAPI, XGBoost ([Github](#))

Oct 2025

- Developed AI salary prediction system with FastAPI and React.
- Integrated XGBoost models for accurate employee compensation forecasting.
- Designed interactive dashboard featuring real-time ML data visualization.
- Engineered scalable backend for high-performance machine learning inference.

[QuizCraft](#) | React.js, Node.js, Express.js ([Github](#))

Jun 2025

- Built a responsive multi-language quiz app with real-time feedback and scoring.
- Engineered smart question filtering to exclude previously answered questions.
- Developed backend APIs for dynamic quiz data and score tracking.
- Added visual stats and progress indicators to improve learning experience.

[LockQuest](#) | React.js, CSS ([Github](#))

Aug 2025

- Created an interactive password challenge game with 15 progressive validation rules.
- Executed real-time input validation and rule unlocking for better engagement.
- Added a live progress bar to visually track rule completion.
- Focused on gamification to improve memory, logic, and user interaction.

EDUCATION

Pimpri Chinchwad College of Engineering

Pune, Maharashtra

Bachelor of Technology (B.Tech) in Computer Engineering | CGPA: 7.97

08/2023 - Present

Satpuda Jr and Science College

Buldhana, Maharashtra

SSC 12th (HSC) – 79.67%

4/2021 - 5/2022

CODING PROFILES AND CERTIFICATION

- Strong foundation in problem solving with 300+ problems solved on Leetcode, Codechef and Codeforces.
- Completed **Python for Data Science (Elite)** by NPTEL, gaining hands-on experience in Python, data handling, and analytical problem-solving through graded assignments and a proctored exam.
